

ESLAM MOHAMED MAREY

Laravel Backend Developer

+201221805839 | emaree86@gmail.com | [LinkedIn](#) | [GitHub](#) | Alexandria, Egypt

PROFESSIONAL SUMMARY

Results-driven Laravel Backend Developer with hands-on experience building scalable RESTful APIs, SaaS platforms, and full-stack web applications. Proficient in PHP, Laravel, MySQL, and modern backend architecture patterns including Service Layer and Repository Pattern. Experienced with Stripe payment integration, Filament admin panels, and Laravel Sanctum authentication.

TECHNICAL SKILLS

Languages & Frameworks: PHP, Laravel, Laravel Sanctum, Filament v3, Laravel Cashier, MVC, REST API

Databases: MySQL, SQL Server, Eloquent ORM, Database Design, Query Optimization

Frontend: HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, ReactJS, Blade Templates

Payments & APIs: Stripe, Stripe Cashier, Stripe Webhooks, Stripe Customer Portal, Postman, JSON

Tools & Practices: Git, GitHub, OOP, Design Patterns, Problem Solving, Data Structures, Algorithms

PROJECTS

URL Shortener SaaS ★ Featured [GitHub](#) (Private Repository — Demo Available Upon Request)

Laravel 12 · Filament v3 · Stripe Cashier · MySQL · Tailwind CSS · Blade

Architected a full-stack SaaS URL shortener with a Freemium model (Free, Starter, Pro, Unlimited)

- Integrated Kashier payment gateway with subscription checkout, webhooks, auto-renewal, and upgrade/downgrade scheduling
- Built dual Filament panels (Admin + User) featuring RBAC, API token management, analytics dashboards, and real-time statistics widgets
- Implemented click analytics tracking device type, browser, referrer, and visitor activity using custom middleware
- Engineered a subscription lifecycle system handling expiry checks, grace periods, and scheduled package downgrades via Laravel Scheduler
- Developed a bilingual (EN/AR) responsive landing page with dark/light mode, glassmorphism UI, scroll animations, and live URL demo
- Exposed a RESTful shortening API with token-based authentication, duplicate detection, and per-plan rate limiting

MicroCRM — Full-stack CRM System [GitHub](#)

Laravel 12 · Filament v5 · Spatie Permission · MySQL · Tailwind CSS · Blade

Architected a full-stack CRM system with role-scoped data access and a structured sales pipeline

- Implemented a Kanban sales pipeline with drag-and-drop, customizable stages, and color-coded columns
- Designed a multi-tier RBAC system (Admin / Sales Manager / Salesperson) using Spatie Permission and Filament Shield

- Built an admin dashboard with real-time statistics and charts covering deals per stage and monthly revenue
- Engineered optimized MySQL queries for role-scoped data access across three permission levels
- Managed customers and deals with soft deletes, activity logging, and team assignment workflows
- Developed a bilingual-ready responsive landing page with dark mode support and auto role assignment on registration

Laravel Sanctum API [GitHub](#)

Laravel · Sanctum · MySQL · PHP · Postman

- Built a secure token-based authentication API for an e-commerce platform using Laravel Sanctum
- Designed RESTful endpoints for product management, cart operations, and order processing

HEMAA — Accessibility Web Application [GitHub](#)

HTML · CSS · JavaScript · PHP · MySQL

- Designed and built a web app for individuals with special needs featuring adjustable font size, letter spacing, and enhanced accessibility controls
-

INTERNSHIPS

Summer Training — React Track | Information Technology Institute (ITI)

Mansoura, Egypt | July – August 2023

- Completed intensive training in HTML5, CSS3, JavaScript, Bootstrap, Tailwind CSS, ReactJS, and Communication Skills

Summer Training — PHP & Laravel Track | Information Technology Institute (ITI)

Menoufia, Egypt | July – August 2022

- Completed training in SQL Server, PHP, Laravel Framework, Laravel MVC, and Communication Skills

Summer Training — PHP & Laravel Track | Arab Academy for Science & Technology (AAST)

Alexandria, Egypt | June – September 2022

- Completed training in MySQL, PHP, Laravel Framework, and Laravel MVC
-

EDUCATION

Bachelor of Science — Computer Science | Kafr El Sheikh University

Kafr El Sheikh, Egypt | October 2020 – June 2024

- Faculty of Computers and Information — Information Systems Department
 - CGPA: 3.5 / 4.0
-

EXTRACURRICULAR ACTIVITIES

Volunteer Member | IEEE — Kafr El Sheikh Branch

Kafr El Sheikh, Egypt | November 2020 – November 2022

- Developed a web application using PHP, Laravel Web API, JSON Web Token (JWT), and MySQL
-

LANGUAGES

- Arabic — Native
- English — B2 Level ([EFSET according to CEFR](#))
